

# SATURDAY ACTIVITIES

## VISITING LONDON

Did you know that more tourists visit London than any other city in the world?

### Ready to go

Look carefully at the suitcase on the left – it's full of things that someone might pack for a visit to London. Then, cover the suitcase, and try to draw or write everything in the empty suitcase on the right. Can you remember what was in it?

### On the bus

Open-top buses take people around the sights of London. These tourists are missing some of their things. Can you complete the picture?

☆ All tourists wearing green need a camera.

☆ All tourists wearing blue need sunglasses.

☆ All tourists wearing yellow need a hat.

### Selfie snaps

James and Millie are taking photos in front of a famous London landmark, the Palace of Westminster. Can you spot five differences between the two photos?

### Souvenirs

Marco wants to buy four souvenirs to take back home with him. He has £3 to spend. Can you figure out which four things he can buy, leaving no money left over? Draw around them.

Do any calculations here:  
There are 100 pennies (p) in 1 pound (£).

### London puzzle

Here are some things that tourists expect to see when they visit London. Can you draw a line through all the boxes, following the sequence below? You can go up, down, left or right, and you mustn't draw through any boxes twice.
